# SUKHDEV KANJARIYA
## Software Engineer

✉ sukhdev6dev@gmail.com          📞 **7572902095**          🌐 **Sukhdev Kanjariya**

## PROFESSIONAL SUMMARY

Results-driven **Software Engineer** with **3+ years** of experience specializing in **React, Next.js, Node.js,** and **React Native** for scalable web and mobile applications. As a **self-taught developer**, I quickly adapt to new technologies and tools to deliver high-quality solutions.

## TECHNICAL SKILLS

- **Frontend :** React.js, Next.js, Redux, JavaScript (ES6+), TypeScript, HTML, CSS, TailwindCSS, Material UI
- **Mobile Development :** React Native (Bare & Expo), Android Studio, XCode
- **Backend :** Node.js, Express.js, MongoDB, PostgreSQL, REST APIs
- **DevOps & Tools :** Git, GitHub, CI/CD, Vercel, Docker
- **Other :** Agile Methodology, Problem-Solving, Debugging, Performance Optimization, Project Discussion, Code Reviews

## PROFESSIONAL EXPERIENCE

● **Sr. React Developer**                                              **December 2023 - Present**
   **— Ciesto Solutions, Rajkot, Gujarat**
- Develop and maintain **Next.js and Node.js applications**, resolving technical challenges and optimizing performance.
- Lead **React Native (Bare Workflow) mobile app development**, ensuring smooth deployments for **Android and iOS**.
- Collaborate with cross-functional teams, including designers, product managers, and developers, to create high-quality products.
- Upgrade projects for **major SDK updates**, improving compatibility and stability.
- Debug and resolve issues, implementing optimized solutions to enhance performance and user experience.

● **Sr. Software Engineer**                                              **January 2023 - November 2023**
   **— Quoted Infotech, Rajkot, Gujarat**
- Built and maintained web & mobile apps using **React.js, Next.js,** and **Node.js**.
- Communicated with clients and team members to gather requirements and resolve queries.
- Participated in **code reviews** and provided constructive feedback to developers.
- Assisted management in creating **playbooks for various processes**.
- **Mentored** junior developers in **project planning and execution**.
- Trained, guided, and monitored interns, evaluating their performance.

● **Software Engineer**                                              **October 2021 - December 2022**
   **— Quoted Infotech, Rajkot, Gujarat**
- Developed scalable web applications using **React.js** and **Next.js** with state management using **Redux Toolkit.**
- Implemented **Client-Side Rendering (CSR)** and **Server-Side Rendering (SSR)** using Next.js to **optimize performance, SEO, and user experience**.
- Implemented backend functionalities using **Node.js** and **PostgreSQL, Knex.js,** and **Redis.**
- Worked closely with UI/UX teams to create seamless user experiences.

## KEY PROJECTS

- **Kingsman :- (***Ciesto Solutions***)**
  - Developed a **Next.js**-powered multi-platform museum exhibit showcasing Singapore's legal history, optimized for **projector, tablets, PC, and mobile**.
  - Designed pixel-perfect UI with a **custom video player, PDF viewer, and interactive gallery**.
  - Implemented a **multiplayer live quiz playable offline**, allowing users to join from their own devices, synchronized with a projector using **Node.js** and **Socket.io**.
- **Raasvilla: (***Ciesto Solutions***)**
  - Developed a customized QR code-based pass scanning system in **Next.js with offline support using IndexedDB**.
  - Implemented data synchronization for scanned pass totals across multiple devices.
  - Enabled seamless entry for both **individual and group passes** with efficient data handling.
- **FSG|ONE :- (***Ciesto Solutions***)**
  - Developed a cross-platform workforce management app using **React Native (Bare Workflow)** for **iOS and Android**.
  - Implemented **real-time job synchronization, offline data handling, and background tasks** to enhance usability in low-connectivity environments.
  - Integrated **time tracking, PDF generation, and notifications** to streamline workforce scheduling and reporting.
- **Other Projects: (***Ciesto Solutions***)**
  - Developed **Social Walls**, an **iPad and web app (React Native, Next.js)** that allows users to share **feedback through drawings and messages** in public spaces.
  - Built **Lemantus**, a **React Native-based e-commerce application** for medical supplements, ensuring a seamless user experience.

- **Klimates:- (***Quoted Infotech***)**
  - Developed a **React.js and Material UI-based platform** for **climate action & sustainability**, enabling businesses and individuals to **measure, manage, and offset carbon emissions**.
  - Implemented **data tracking dashboard, PDF certificate generation, and subscription payment integration**.
  - Built a high-performance **Gatsby site using Material UI and GraphQL**, ensuring a modern, responsive, and optimized user experience.
- **HomeTales:- (***Quoted Infotech***)**
  - **Developed a real-estate social network platform** integrating marketplace and social media features using **Next.js, Node.js, and MySQL**, enabling seamless connections between buyers, sellers, and professionals.
  - Implemented **real-time chat, notifications** using **Socket.io,** and **advanced property search** with **Geo filters**
  - Led frontend development with **Redux Toolkit, React Hook Form, and React-Bootstrap**, optimizing SEO and performance with **SSR** for a dynamic user experience.

## LANGUAGES

● **English**                                      ● **Hindi**                                      ● **Gujarati**

## EDUCATION

● **Bachelor of Engineering - Electronics Engineering**                                      **2017 - 2021**
   The Maharaja Sayajirao University, Vadodara
